

# Santo<sup>®</sup> Solar - The Luminescent Litter Bin.

Developed by **SOLAR LIFESTYLE GMBH**

Santo<sup>®</sup> Solar is...

- Nightly landmark,
- Solar design object,
- innovative (sustainable) urban furnishing.

Based on our experience with talking litter bins in public relations, we have fitted the model Santo<sup>®</sup> from OTTO Entsorgungssysteme GmbH with unobtrusive lighting – powered by solar technology.

Especially in areas sparsely lit at night such as public parks, it meaningfully complements sustainable and multifunctional urban furnishing.

Technical details:  
All-around lighting with LEDs and optical fibers.

Optional:  
Sensor-controlled speech or sound output.  
Independent operation without network grid connection.

Available September 2008.

Please contact us for further information.
